YOUR BUDGET FOR IDEAS - THE "GRÄTZLMARIE"!

Get involved in shaping your neighbourhood! A specific budget, the "Grätzlmairie" (neighbourhood money), has been allocated to implement your ideas.

SUBMIT YOUR PROJECTS

You can submit projects all year long. The Local Urban Renewal Office (Gebietsbetreuung Stadterneuerung) is your contact point to share ideas for the neighbourhood. A Neighbourhood Council evaluates the ideas three times a year.

Please visit wieneuplus.wien.gv.at to find out more about current submission deadlines.

The selected projects are funded with amounts between 100 and 30,000 Euro. Half of the members of the Neighbourhood Council are residents of the 20th and 2nd districts.

Redevelopment and Energy Supply

THE NEIGHBOURHOOD SUBSIDY MAKES BUILDINGS FIT FOR THE FUTURE!

With the neighbourhood subsidy ("Grätzlförderung"), WieNeu+ supports house owners who want to implement innovative solutions for future-proof and climate-friendly buildings in the project area "Grätzl 20+2".

The implementation of innovative solutions is funded with up to 500,000 Euro. The funding rate for the selected (innovative) measures is between 50 and 70 percent and depends on the size of the company. In addition, planning measures (preliminary or feasibility studies) for such ideas can also be funded with up to 30,000 Euro.

Public Space

MORE QUALITY OF LIFE FOR ALL!

WieNeu+ supports improvements in public space. The aim is to ensure quality of life for all and to allow residents to spend time outside in a pleasant environment. WieNeu+ is also committed to improving the conditions for cycling and walking. Residents and local businesses are invited to express their wishes and contribute their ideas.

PARTNERSHIP

WieNeu+ perceives urban renewal as a comprehensive concept. Numerous municipal institutions are involved. Companies and private individuals are also invited to participate. This is why WieNeu+ often initiates partnerships and innovative processes that have an effect beyond the duration of the programme.

WE KEEP YOU INFORMED ABOUT
OPPORTUNITIES TO PARTICIPATE.

"Together we improve our neighbourhoods and make them future and climate-proof. It's all about quality of life and sustainable solutions. We need your ideas! Get involved! The City of Vienna will support you!"

Kathrin Gaál

Deputy Mayor and Executive City Councillor for Women's Issues and Housing, Housing Construction, Urban Renewal

What is WieNeu+?

WieNeu+ is a 10-year urban renewal programme by the City of Vienna that aims to make neighbourhoods climate- and future-proof. Specific projects are developed and implemented together with local players and residents. Participatory activities and partnerships in the different target areas or "Grätzln" (i.e. Viennese for "neighbourhoods") get specific support and funding.

In this context, urban renewal includes all aspects that make up life in built-up areas in the city: buildings, public space, and people who live and work there and can get involved in initiatives and projects. **JOIN IN!**
